Dear Shareholders,

Letter to Shareholders

Robert D. Hansen Chairman and Chief Executive Officer March 1, 2012

Attached please find the operating results for Electromed, Inc. for the Second Quarter and First Half of FY2012 for those respective periods ended December 31, 2011. After a sharp gain of 29% in Sales for the First Quarter, the Company's Sales in the Second Quarter were up only 2%. Correspondingly, Net Income after more than doubling in the First Quarter dropped more than 90% in the Second Quarter.

This can be attributed to the fact that 20% of our Sales representatives, many of them hired in the past twelve months, did not attain their individual Sales goals. As a result, they were released during the Second Quarter. Management shares the responsibility for the fact that these former employees did not meet our expectations regarding attaining higher Sales levels. Be assured that aggressive measures are being committed to the selection of successors who possess the experience, sales skills, and determination to succeed at our Company.

This Second Quarter adjustment among Sales staff did not affect the important progress underway in other sections of the Company. Strategic investments in R&D are signaling advances in product development. In addition, further infrastructure directed investments were completed in the final months of 2011. The Company also completed the lease and renovation of an adjacent building which now serves the needs of the Reimbursement Department.

During the Fourth Quarter of FY2011, Dr. Jim Cassidy joined the Company as its first Chief Operating Officer (COO). Mr. Jeremy Brock, CPA, succeeded Mr. Terry Belford, CPA, as Chief Financial Officer (CFO) following Terry's retirement. As the number of employees approached one hundred (100), a Director of Human Resources was added as well to assure high quality employment standards and practices.

Management was reminded that rapid growth carries many rewards and much excitement, but it can also produce some painful surprises. The right course is to respond rapidly by analyzing their causes and then applying wise solutions deliberately and with conviction.

Electromed, Inc. continues confidently toward the realization of its Two Year Financial Goals. Each goal was articulated in the Company's Annual Report for FY2010 when Annual Sales of \$14,000,000 were reported. Those goals were to reach or exceed Annual Sales of \$20,000,000 in FY2012 and to remain profitable. These goals were established despite what was then very challenging and discouraging economic conditions along with foreboding expectations for the future.

For the First Half of FY2012, Sales were up nearly 15%, exceeding \$10,000,000. Net Income declined but remained substantial. The Company recently executed a Distributor Agreement with Linde Gas Therapeutics GmbH, a multi-billion dollar company with headquarters in Germany. Electromed, Inc. has also successfully expanded its Line of Credit by \$2,500,000 with U.S. Bank through 2013. Required forward investments in personnel are now in place to support further rapid Sales gains over the next two fiscal years (FY2013 and FY2014).

I believe that the convergence of a strengthened senior management, expansions in the level of experience, management structure and composition of the Sales team, along with sustained product innovation, will keep Electromed, Inc. in the vanguard of growth and profitability. This can occur despite the global economic challenges which lie ahead. Our strategic position and history of success, along with future favorable performance, can attract and retain new and established shareholders thereby driving valuations to levels consistent with such achievements.

Your patience and encouragement as a Shareholder are important assets of Electromed, Inc. Be assured of Management's determination to justify the confidence and risks your investment represents in this Company.

Sincerely,

Robert D. Hansen

Chairman and Chief Executive Officer

March 1, 2012

Above: Electromed, Inc.'s COO, Dr. James Cassidy, and CFO, Jeremy Brock, at Corporate Headquarters in New Prague, MN.

Right: Kathy Shimota, Manager of Electromed Inc.'s expanding Reimbursement Department.

CAUTIONARY STATEMENTS

Certain statements found in this letter may constitute forward-looking statements as defined in the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements reflect the speaker's current views with respect to future events and financial performance and include any statement that does not directly relate to a current or historical fact. Forward-looking statements can generally be identified by the words "believe," "expect," "anticipate" or "intend" or similar words. Forward-looking statements made in this release include the Company's plans and expectations regarding sales growth and profitability, valuation and product development. Forward-looking statements cannot be guaranteed and actual results may vary materially due to the uncertainties and risks, known and unknown, associated with such statements. Examples of risks and uncertainties for Electromed include, but are not limited to, the impact of emerging and existing competitors, the effectiveness of our sales and marketing initiatives, changes to reimbursement programs, as well as other factors described from time to time in our reports to the Securities and Exchange Commission (including our Annual Report on Form 10-K). Investors should not consider any list of such factors to be an exhaustive statement of all of the risks, uncertainties or potentially inaccurate assumptions investors should take into account when making investment decisions. Shareholders and other readers should not place undue reliance on "forward-looking statements," as such statements speak only as of the date of this release.

ELECTROMED, INC. REPORTS 2012 SECOND QUARTER RESULTS

New Prague, Minnesota – February 13, 2012 – Electromed, Inc. (NYSE Amex: ELMD) today announced financial results for the three-month period ended December 31, 2011. Net Revenues for the three months ended December 31, 2011, were approximately \$4,790,000, a 2.2% increase compared to Net Revenues of approximately \$4,686,000 for the same period last year. The Company also announced Net Income of approximately \$25,000, or \$0.00 per basic and diluted share, for the three months ended December 31, 2011, compared to Net Income of approximately \$292,000, or \$0.03 per basic and diluted share, for the same period last year. The reduction in Net Income results was attributable to missed sales goals reflecting underperformance by a number of former Clinical Area Managers. This resulted from termination-driven turnover of approximately 16% of the sales force. Management continues to believe that planned increases in the Company's sales force, reimbursement and production personnel, coupled with the expansion of marketing and research and development efforts, will provide strong impetus for continued solid annual sales growth.

Robert Hansen, Chairman and CEO, commented on the Company, saying,

"When some employees fail to achieve planned goals, the performance of all the employees is compromised. In Sales, this fact is especially relevant. When momentum falters, the solution is to make summary changes and to replace weakness with strength. The Regional Sales Managers

Results for the Three-Months Ended December 31, 2011

Page 2

of Electromed, Inc. and I have acted swiftly to recruit new, highly-trained, and experienced sales staff to succeed the sales staff who failed to keep pace with the growth needs of the Second Quarter. New and exciting successors have replaced underperformers. I remain confident that the balance of Fiscal Year 2012, and the First Half of FY2013, beginning July 1, 2012, will reflect strong sales growth accompanied by continued profitability."

Gross Profit decreased to approximately \$3,480,000, or 72.6% of Net Revenues, for the three months ended December 31, 2011, compared to \$3,540,000, or 75.6% for the same period in Fiscal 2011. The decrease in gross profit percentage was primarily the result of a change in average reimbursement from the mix of referrals during the three month period. Factors such as diagnoses that are not assured of reimbursement and insurance programs with lower allowable reimbursement amounts (for example, state Medicaid programs) affect average reimbursement received on a short-term basis. These factors tend to fluctuate on a quarterly basis. However, management does not believe the results of the quarter ended December 31, 2011, are indicative of a long-term trend in decreasing margins.

Operating Expenses, which consist of Selling, General, and Administrative Expenses and Research and Development expenses, were approximately \$3,380,000 for the three months ended December 31, 2011, an increase of approximately 12.6% over Operating Expenses for the same period last year. These planned increases resulted from higher payroll related to increasing the size of the sales team, increases in reimbursement, administration, patient services staff, and patient training costs related to the higher Sales volume, increased expenses relating to being a new public Company, and increased Research and Development expenses.

Total cash was approximately \$1,745,000 as of December 31, 2011. For the three months ended December 31, 2011, cash used in financing activities was approximately \$86,000, consisting primarily of \$90,000 in payments of long-term debt, capital lease obligations, and deferred financing fees. An aggregate of \$405,000 was used for investing activities during the three months ended December 31, 2011, for purchases of property and equipment. The Company used approximately \$710,000 in operating activities composed primarily of an increase in the Company's accounts receivables and inventory, which increased approximately \$304,000 and \$234,000, or 2.9% and 10.8%, respectively. Accounts payable and accrued liabilities decreased approximately \$302,000, or 14.0%, during the three months ended December 31, 2011.
