

Best-in-Class Therapy, Direct to Your Home

An **Aerobika**® Device from Electromed Delivers More than Just a Great Therapy

➤ What is the **Aerobika**® device?

The **Aerobika**® Oscillating Positive Expiratory Pressure (OPEP) device is a convenient, user-friendly device that provides reliable, drug-free, natural airway clearance.

By creating positive pressure and oscillations simultaneously, the **Aerobika**® device opens weak or collapsed airways, which helps move mucus to the upper airways where it can be coughed out.

➤ How is the **Aerobika**® device beneficial?

Proven in clinical trials to deliver significant improvements in quality of life after as little as three weeks of use, the **Aerobika**® device slows progression of chronic lung conditions—like chronic obstructive pulmonary disease (COPD), bronchiectasis, cystic fibrosis and chronic bronchitis—when used consistently.¹

➤ How can I purchase the **Aerobika**® device?

Electromed, a recognized leader in airway clearance therapy and makers of the SmartVest, now offers the **Aerobika**® device as a part of our commitment to customer care.

By purchasing an **Aerobika**® device from Electromed, you gain unrivaled support throughout your therapy experience. Our patient support specialist team is ready to help at every step, including initial consultations, filling your **Aerobika**® device prescription, and support questions.

Follow these steps to receive your device:

1.

Obtain a prescription from your doctor

2.

Call a member of our patient support specialist team at 888.966.2525

3.

Send your prescription to Electromed through fax (888.901.7373) or email (opep@electromed.com)

4.

Receive your **Aerobika**® device in just a few days
