QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Commission File No.: 001-34839

**Electromed, Inc.**

(Exact Name of Registrant as Specified in its Charter)

**Minnesota**

(State or other jurisdiction of incorporation or organization)

**41-1732920**

(I.R.S. Employer Identification No.)

**500 Sixth Avenue NW  
New Prague, Minnesota**

(Address of principal executive offices)

**56071**

(Zip Code)

**(952) 758-9299**

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

(Do not check if smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

There were 8,260,167 shares of Electromed, Inc. common stock, par value \$0.01, outstanding as of the close of business on November 2, 2017.

**Electromed, Inc.**  
**Notes to Condensed Financial Statements**  
**(Unaudited)**

**Note 1. Interim Financial Reporting**

**Basis of presentation:** Electromed, Inc. (the “Company”) develops, manufactures and markets innovative airway clearance products that apply High Frequency Chest Wall Oscillation (“HFCWO”) therapy in pulmonary care for patients of all ages. The Company markets its products in the U.S. to the home health care and institutional markets for use by patients in personal residences, hospitals and clinics. The Company also sells internationally both directly and through distributors. International sales were approximately \$101,000 and \$67,000 for the three months ended September 30, 2017 and 2016, respectively. Since its inception, the Company has operated in a single industry segment: developing, manufacturing and marketing medical equipment.

The accompanying unaudited condensed financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial statements and pursuant to the rules and regulations of the U.S. Securities and Exchange Commission. In the opinion of management, the accompanying unaudited condensed financial statements reflect all adjustments consisting of normal recurring adjustments necessary for a fair presentation of the Company’s financial position and results of operations as required by Regulation S-X. Interim results of operations are not necessarily indicative of the results that may be achieved for the full year. The financial statements and related notes do not include all information and footnotes required by U.S. GAAP for annual reports. This interim report should be read in conjunction with the financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2017 (“fiscal 2017”).

**A summary of the Company’s significant accounting policies follows:**

**Use of estimates:** Management uses estimates and assumptions in preparing the condensed financial statements in accordance with U.S. GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used. The Company believes the critical accounting policies that require the most significant assumptions and judgments in the preparation of its condensed financial statements include revenue recognition and the related estimation of selling price adjustments, allowance for doubtful accounts, inventory obsolescence, share-based compensation, income taxes and the warranty reserve.

**Net income per common share:** Net income is presented on a per share basis for both basic and diluted common shares. Basic net income per common share is computed using the weighted average number of common shares outstanding during the period, excluding any restricted stock awards which have not vested. The diluted net income per common share calculation includes outstanding restricted stock grants and assumes that all stock options were exercised and converted into common stock at the beginning of the period, unless their effect would be anti-dilutive. Common stock equivalents excluded from the calculation of diluted earnings per share because their impact was anti-dilutive was 177,750 and 196,500 for the three months ended September 30, 2017 and 2016, respectively.

**New accounting pronouncements:** In May 2014, the Financial Accounting Standards Board (“FASB”) issued guidance creating Accounting Standards Codification (“ASC”) Section 606, “Revenue from Contracts with Customers.” The new section will replace ASC Section 605, “Revenue Recognition,” and creates modifications to various other revenue accounting standards for specialized transactions and industries. The section is intended to conform revenue accounting principles with a concurrently issued International Financial Reporting Standards with previously differing treatment between U.S. practice and that of much of the rest of the world, as well as to enhance disclosures related to disaggregated revenue information. Entities will have the option to apply the standard retrospectively to all prior periods presented (“full retrospective”), or to apply it retrospectively only to contracts existing at the effective date (“modified retrospective”), with the cumulative effect of the standard recorded as an adjustment to beginning retained earnings. The updated guidance will be effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within that year. The Company is currently evaluating which of the alternative approaches it will apply and the potential impact of adoption of the revised revenue standards on its financial statements. The Company intends to complete its evaluation during its fiscal year ending June 30, 2018.

In July 2015, FASB issued ASU 2015-11, “Inventory (Topic 330) Related to Simplifying the Measurement of Inventory,” which applies to all inventory except that which is measured using last-in, first-out (“LIFO”) or the retail inventory method. Inventory measured using first-in, first-out (“FIFO”) or average cost is within the scope of the new guidance and should be measured at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable cost of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. The amendments are effective for public business entities for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The new guidance is applied prospectively, and earlier application is permitted as of the beginning of an interim or annual reporting period. The Company adopted ASU 2015-11 effective July 1, 2017, which had no material impact on its financial statements or financial statement disclosures.

In February 2016, FASB issued ASU 2016-02, “Leases (Topic 842).” This standard requires the recognition of all lease transactions with terms in excess of 12 months on the balance sheet as a lease liability and a right-of-use asset (as defined in the standard). ASU 2016-02 will be effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, with earlier application permitted. Upon adoption, the lessee will apply the new standard retrospectively to all periods presented or retrospectively using a cumulative effect adjustment in the year of adoption. The Company has evaluated that ASU 2016-02 will have no material impact on its financial statements or financial statement disclosures upon adoption based on current facts and circumstances.

In March 2016, FASB issued ASU 2016-09, “Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting,” which reduces complexity in accounting standards related to share-based payment transactions, including, among others, (1) accounting for income taxes, (2) classification of excess tax benefits on the statement of cash flow, (3) forfeitures, and (4) statutory tax withholding requirements. ASU 2016-09 is effective for annual reporting periods beginning on or after December 15, 2016, and interim periods within those annual periods. The Company adopted ASU 2016-09 effective July 1, 2017, which had no material impact on its previously reported financial statements in the Company’s Annual Report on Form 10-K for fiscal 2017. The Company has elected to continue to recognize estimated forfeitures as stock-based compensation expense.

## Note 2. Inventories

The components of inventory were approximately as follows:

	September 30, 2017	June 30, 2017
Parts inventory	\$ 1,741,000	\$ 1,789,000
Work in process	183,000	205,000
Finished goods	790,000	745,000
Less: Reserve for obsolescence	(260,000)	(180,000)
Total	<u>\$ 2,454,000</u>	<u>\$ 2,559,000</u>

## Note 3. Finite-life Intangible Assets

The carrying value of patents and trademarks includes the original cost of obtaining the patents, periodic renewal fees, and other costs associated with maintaining and defending patent and trademark rights. Patents and trademarks are amortized over their estimated useful lives, generally 15 and 12 years, respectively. There were no abandonments of domestic or foreign patents that occurred during the three months ended September 30, 2017. During the year ended June 30, 2017, the Company abandoned certain domestic and foreign patents with net values of approximately \$133,000 which were included as an expense in selling, general and administrative expense on the statements of operations. The majority of the pending patents that were abandoned related to the initial development of our SQL SmartVest technology. During a review of the Company’s patent portfolio it was determined that certain patents proved redundant to a subsequent SQL patent filing and were therefore abandoned. A smaller portion of expense was related to patents that covered technology that management considered outdated, and was no longer in use. Accumulated amortization was \$825,000 and \$790,000 at September 30, 2017 and June 30, 2017, respectively.

The activity and balances of finite-life intangible assets were approximately as follows:

	Three Months Ended September 30, 2017	Fiscal Year Ended June 30, 2017
Balance, beginning	\$ 721,000	\$ 904,000
Additions	7,000	68,000
Abandonments	–	(133,000)
Amortization expense	(28,000)	(118,000)
Balance, ending	<u>\$ 700,000</u>	<u>\$ 721,000</u>

#### Note 4. Warranty Liability

The Company provides a lifetime warranty on its products to the prescribed patient for sales within the U.S. and a three-year warranty for all institutional sales and sales to individuals outside the U.S. The Company estimates the costs that may be incurred under its warranty and records a liability in the amount of such costs at the time the product is shipped. Factors that affect the Company's warranty liability include the number of units shipped, historical and anticipated rates of warranty claims, the product's useful life and cost per claim. The Company periodically assesses the adequacy of its recorded warranty liability and adjusts the amounts as necessary.

Changes in the Company's warranty liability were approximately as follows:

	Three Months Ended September 30, 2017	Fiscal Year Ended June 30, 2017
Beginning warranty reserve	\$ 640,000	\$ 660,000
Accrual for products sold	93,000	129,000
Expenditures and costs incurred for warranty claims	(43,000)	(149,000)
Ending warranty reserve	\$ 690,000	\$ 640,000

#### Note 5. Income Taxes

On a quarterly basis, the Company estimates its effective tax rate for the full fiscal year and records a quarterly income tax provision based on the anticipated rate. As the year progresses, the Company refines its estimate based on the facts and circumstances by each tax jurisdiction. Income tax expense was estimated at \$37,000 and the effective tax rate was 23.4% for the three months ended September 30, 2017. Income tax expense for the three months ended September 30, 2017 included a discrete tax benefit of approximately \$25,000 as a result of greater federal and state research and development tax credits than was originally estimated in our tax provision for our fiscal year ended June 30, 2017. This reduced the effective tax rate for the current quarter by 15.8%.

Income tax expense was estimated at \$81,000 and the effective tax rate was 29.8% for the three months ended September 30, 2016. Income tax expense for the three months ended September 30, 2016 included a recognized tax benefit of approximately \$22,000 as a result of the lapse of the statute of limitation on uncertain tax positions, which reduced the effective tax rate for the quarter by 8.0%.

#### Note 6. Financing Arrangements

The Company has a credit facility that provides for a revolving line of credit and a term loan. Effective December 18, 2016, the Company renewed its \$2,500,000 revolving line of credit. There was no outstanding principal balance on the line of credit as of September 30, 2017 or June 30, 2017. Interest on borrowings under the line of credit, if any, would accrue at the prime rate (4.25% at September 30, 2017) and is payable monthly. The amount eligible for borrowing on the line of credit is limited to the lesser of \$2,500,000 or 57.00% of eligible accounts receivable and the line of credit expires on December 18, 2017, if not renewed. At September 30, 2017, the maximum \$2,500,000 was eligible for borrowing. The line of credit is secured by a security interest in substantially all of the tangible and intangible assets of the Company.

In connection with the credit facility, the Company also has a term loan, which had an outstanding principal balance of approximately \$1,141,000 at September 30, 2017 and \$1,154,000 as of June 30, 2017. The term loan was refinanced effective December 18, 2016, reducing the interest rate from 5.00% to 3.88%. The unamortized debt issuance cost associated with this debt was approximately \$5,000 and \$6,000 as of September 30, 2017 and June 30, 2017, respectively. The term loan bears interest at 3.88%, with monthly payments of principal and interest of approximately \$7,900 and a final payment of principal and interest of approximately \$1,085,000 due on the maturity date of December 18, 2018. Payment obligations under the term loan are secured by a mortgage on the Company's real property.

The documents governing the line of credit and term loan contain certain financial and nonfinancial covenants that include a minimum tangible net worth covenant of not less than \$10,125,000 and restrictions on the Company's ability to incur certain additional indebtedness or pay dividends.

## Note 7. Stock-Based Compensation

The Company recorded approximately \$190,000 and \$109,000 of compensation expense related to current and past grants of stock options and restricted stock for the three months ended September 30, 2017 and 2016, respectively. This expense is included in selling, general and administrative expense. As of September 30, 2017, approximately \$1,170,000 of total unrecognized compensation expense related to non-vested equity awards is expected to be recognized over a weighted average period of approximately 1.0 years.

The Company recognizes compensation expense related to share-based payment transactions in the financial statements based on the estimated fair value of the award issued. The fair value of each option is estimated using the Black-Scholes pricing model at the time of award grant. The Company estimates the expected life of options based on the expected holding period by the option holder. The risk-free interest rate is based upon observed U.S. Treasury interest rates for the expected term of the options. The Company makes assumptions with respect to expected stock price volatility based upon the volatility of its stock price. Forfeitures are estimated at the time of grant and revised in subsequent periods if actual forfeitures differ from initial estimates. Forfeitures are estimated based on the percentage of awards expected to vest, taking into consideration the seniority level of the award recipient.

The following assumptions were used to estimate the fair value of options granted:

	<u>Three Months Ended September 30, 2017</u>	<u>Fiscal Year Ended June 30, 2017</u>
Risk-free interest rate	1.77% - 2.07%	1.14% - 1.27%
Expected term (years)	6	6
Expected volatility	125.2% - 141.2%	100.5% - 105.8%

### *Stock Options*

The Company issued 182,250 stock options pursuant to its 2014 Equity Incentive Plan (the "Plan") during the three months ended September 30, 2017. Stock option transactions during the three months ended September 30, 2017 are summarized as follows:

	<u>Number of Shares</u>	<u>Weighted Average Exercise Price per Share</u>
Outstanding at June 30, 2017	747,634	\$ 2.91
Granted	182,250	\$ 5.64
Exercised	-	-
Cancelled or Forfeited	(9,334)	\$ 3.60
Outstanding at September 30, 2017	<u>920,550</u>	<u>\$ 3.44</u>

The intrinsic value of an option is the amount by which the fair value of the underlying stock exceeds its exercise price. At September 30, 2017, the weighted average remaining contractual term for all outstanding stock options was 5.95 years and their aggregate intrinsic value was approximately \$3,562,000. Outstanding at September 30, 2017 were 920,550 stock options issued to employees, of which 586,303 were exercisable and had an aggregate intrinsic value of approximately \$2,653,000.

### *Restricted Stock*

The Plan permits the grant of other stock-based awards. Historically, the Company makes restricted stock grants to key employees and non-employee directors that vest over six months to three years.

During the three months ended September 30, 2017, the Company issued restricted stock awards to employees totaling 30,000 shares of common stock, with a vesting term of one to three years and a fair value of \$5.53 per share. The restricted stock's fair value per share represents the closing price of the Company's common stock on the date the grants were made. Restricted stock transactions during the three months ended September 30, 2017 are summarized as follows:

	<u>Number of Shares</u>	<u>Weighted Average Grant Date Fair Value per Share</u>
Unvested shares at June 30, 2017	29,998	\$ 3.15
Granted	30,000	\$ 5.53
Vested	—	—
Forfeited	—	—
Unvested at September 30, 2017	<u>59,998</u>	<u>\$ 4.34</u>

**Note 8. Commitments and Contingencies**

The Company is occasionally involved in claims and disputes arising in the ordinary course of business. The Company insures its business risks where possible to mitigate the financial impact of individual claims, and establishes reserves for an estimate of any probable cost of settlement or other disposition.

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed financial statements and related notes thereto included in Item 1 of Part I of this Quarterly Report on Form 10-Q and the audited financial statements, related notes thereto and Management’s Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the fiscal year ended June 30, 2017, or “fiscal 2017.”

### Overview

Electromed, Inc. (“we,” “our,” “us,” “Electromed” or the “Company”) develops and provides innovative airway clearance products applying High Frequency Chest Wall Oscillation (“HFCWO”) technologies in pulmonary care for patients of all ages.

We manufacture, market and sell products that provide HFCWO, including the SmartVest® Airway Clearance System (“SmartVest System”) that includes our newest generation SmartVest SQL® and previous generation SV2100, and related products, to patients with compromised pulmonary function. The SmartVest SQL is smaller, quieter and lighter than our previous product, with enhanced programmability and ease of use. Our products are sold in both the home health care market and the institutional market for use by patients in hospitals, which we refer to as “institutional sales.” The SmartVest SQL has been sold in the domestic home care market since the fiscal quarter ended March 31, 2014. In the fourth quarter of our fiscal 2015, we launched the SmartVest SQL into the institutional and certain international markets. During February 2017, we entered into an agreement with Monaghan Medical Corporation to distribute and sell the Aerobika® Oscillating Positive Expiratory Pressure (OPEP) Device in the U.S. home care market. In June 2017, we announced the launch of the SmartVest SQL with SmartVest Connect™ wireless technology which allows data connection between physicians and patients to track therapy performance and collaborate in treatment decisions. SmartVest Connect is currently available to pediatric and cystic fibrosis patients and we will be expanding availability to targeted adult pulmonary clinics during November 2017. Since 2000, we have marketed the SmartVest System and its predecessor products to patients suffering from cystic fibrosis, bronchiectasis and repeated episodes of pneumonia. Additionally, we offer our products to a patient population that includes neuromuscular disorders such as cerebral palsy, muscular dystrophies, amyotrophic lateral sclerosis (“ALS”), the combination of emphysema and chronic bronchitis commonly known as chronic obstructive pulmonary disease (“COPD”), and patients with post-surgical complications or who are ventilator dependent or have other conditions involving excess secretion and impaired mucus transport.

The SmartVest System is often eligible for reimbursement from major private insurance providers, health maintenance organizations (“HMOs”), state Medicaid systems, and the federal Medicare system, which is an important consideration for patients considering an HFCWO course of therapy. For domestic sales, the SmartVest System may be reimbursed under the Medicare-assigned billing code for HFCWO devices if the patient has cystic fibrosis, bronchiectasis (including chronic bronchitis or COPD that has resulted in a diagnosis of bronchiectasis), or any one of certain enumerated neuromuscular diseases, and can demonstrate that another less expensive physical or mechanical treatment did not adequately mobilize retained secretions. Private payers consider a variety of sources, including Medicare, as guidelines in setting their coverage policies and payment amounts.

### Critical Accounting Policies and Estimates

For a description of our critical accounting policies, estimates and assumptions used in the preparation of our financial statements, including the condensed financial statements in this report, see Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and Note 1 to our audited financial statements, included in Part II, Item 8, of our Annual Report on Form 10-K for fiscal 2017.

Some of our accounting policies require us to exercise significant judgment in selecting the appropriate assumptions for calculating financial statements. Such judgments are subject to an inherent degree of uncertainty. These judgments are based upon our historical experience, known trends in our industry, terms of existing contracts and other information from outside sources, as appropriate. We believe the critical accounting policies that require the most significant assumptions and judgments in the preparation of our financial statements, including the condensed financial statements in this report, include: revenue recognition and the estimation of selling price adjustments, allowance for doubtful accounts, inventory obsolescence, share-based compensation, income taxes and warranty liability.

## Results of Operations

### Revenues

Revenue for the three months ended September 30, 2017 and 2016 are summarized in the table below (dollar amounts in thousands).

	Three Months Ended September 30,		Increase (Decrease)	
	2017	2016		
Total Revenue	\$ 6,382	\$ 5,545	\$ 837	15.1%
Home Care Revenue	5,980	5,132	848	16.5%
Institutional Revenue	301	346	(45)	(13.0)%
International Revenue	101	67	34	50.7%

*Home Care Revenue.* Home care revenue for the three months ended September 30, 2017 was approximately \$5,980,000, an increase of approximately \$848,000, or 16.5%, compared to the same period in fiscal 2017. Homecare revenue increased during the three months ended September 30, 2017, primarily due to an increase in approvals and referrals, driven by a higher number of field sales employees.

*Institutional Revenue.* Institutional revenue for the three months ended September 30, 2017 was approximately \$301,000, representing a decrease of approximately \$45,000, or 13.0%, compared to the same period in fiscal 2017. The decrease in revenue for the three months ended September 30, 2017 was due to a decrease in sales of single patient use garments and the number of units sold compared to the same period in the prior year. Institutional revenue includes sales to distributors, group purchasing organization (“GPO”) members and other institutions.

*International Revenue.* International revenue for the three months ended September 30, 2017 was approximately \$101,000, representing an increase of approximately \$34,000, or 50.7%, compared to the same period in fiscal 2017. International sales are affected by the timing of distributor purchases that can cause significant fluctuations in reported revenue on a quarterly basis.

### Gross profit

Gross profit increased to approximately \$4,936,000, or 77.3% of net revenues, for the three months ended September 30, 2017, from approximately \$4,328,000, or 78.1% of net revenues, in the same period in fiscal 2017. The increase in gross profit was primarily related to increases in domestic home care revenues. The decline in our gross profit as a percentage of net revenue during the three months ended September 30, 2017 as compared to the same period in the prior year was driven by the additional cost to manufacture the SmartVest SQL with SmartVest Connect™ wireless technology.

### Operating expenses

*Selling, general and administrative expenses.* Selling, general and administrative (“SG&A”) expenses were approximately \$4,704,000 for the three months ended September 30, 2017, representing an increase of approximately \$1,016,000, or 27.5%, compared to the same period in the prior year.

Payroll and compensation-related expenses were approximately \$2,685,000 during the three months ended September 30, 2017, representing an increase of approximately \$649,000, or 31.9%, compared to the same period in the prior year. The increase in the current year period was due to additional employees in sales and administration, annual salary increases, higher share based compensation, additional sales incentives on higher revenue and higher management bonus accruals.

Professional fees for the three months ended September 30, 2017 were approximately \$500,000, an increase of approximately \$154,000, or 44.5%, as compared to the comparable period in the prior year. These fees are primarily for services related to shareowner services and reporting requirements, legal costs, information technology (“IT”) security and backup and other consulting fees. The increase in professional fees was primarily due to increases in investor relations and IT costs, which were partially offset by a decrease in sales consulting.

Recruiting fees for the three months ended September 30, 2017 were approximately \$165,000, representing an increase of approximately \$94,000, or 132.4%, as compared to the same period in the prior year. The increase in recruiting fees was due primarily to adding more employees in sales and administrative roles as compared to the prior year.

Travel, meals and entertainment expenses were approximately \$477,000 for the three months ended September 30, 2017, representing an increase of approximately \$36,000, or 8.2%, compared to the same period in the prior year. The increase was due primarily to additional sales personnel.

*Research and development expenses.* Research and development (“R&D”) expenses were approximately \$71,000 for the three months ended September 30, 2017, representing a decrease of approximately \$280,000, as compared to the same period in the prior year. R&D expenses for the three months ended September 30, 2017 and 2016 were 1.1% and 6.3% of net revenue, respectively. During the fiscal year ended June 30, 2016, we began developing SmartVest Connect, a new wireless connectivity feature for our HFCWO device which allows data connection between physicians and patients. We believe SmartVest Connect will strengthen our patient and clinician partnerships, leading to greater therapy adherence and improved quality of life for individuals with compromised pulmonary function. We launched this new feature in June 2017. As a percentage of net revenues, we expect spending on R&D expenses to increase to more historical run rates through the remainder of our fiscal year ending June 30, 2018, with engineering resources focusing on product enhancements and other market opportunities. Certain expenses related to our innovation investments are not always captured in R&D expenses. These expenses may be included in cost of sales as in the case of depreciation of tooling, or for SG&A, in the case of professional fees or higher labor expenses, as we improve our internal processes or enhance our customer service.

#### ***Interest expense***

Interest expense, net, was approximately \$4,000 for the three months ended September 30, 2017, compared to \$17,000 in the same period in the prior year. The decrease in net interest expense during the three months ended September 30, 2017 as compared to the prior year was driven by an increase in interest income, a lower effective interest rate on outstanding borrowings and a lower level of debt as compared to the prior year.

#### ***Income tax expense***

Income tax expense was estimated at \$37,000 and the effective tax rate was 23.4% for the three months ended September 30, 2017. Income tax expense for the three months ended September 30, 2017 included a discrete tax benefit of approximately \$25,000 as a result of greater federal and state research and development tax credits than was originally estimated in our tax provision for our fiscal year ended June 30, 2017. This reduced the effective tax rate for the current quarter by 15.8%.

Income tax expense was estimated at \$81,000 and the effective tax rate was 29.8% for the three months ended September 30, 2016. Income tax expense for the three months ended September 30, 2016 included a recognized tax benefit of approximately \$22,000 as a result of the lapse of the statute of limitation on uncertain tax positions, which reduced the effective tax rate for the quarter by 8.0%.

#### ***Net income***

Net income for the three months ended September 30, 2017 was approximately \$121,000 compared to net income of approximately \$191,000 for the same period in the prior year. The year-over-year decrease in net income was driven primarily by higher SG&A expenses related hiring additional new employees which was partially offset by an increase in gross profit driven by higher revenue and lower R&D expenses as compared to the prior year.

### **Liquidity and Capital Resources**

#### ***Cash Flows and Sources of Liquidity***

##### ***Cash Flows from Operating Activities***

For the three months ended September 30, 2017, net cash provided by operating activities was approximately \$328,000. Cash flows provided by operating activities consisted of net income of approximately \$121,000, non-cash expenses of \$378,000 and a decrease in accounts receivable and inventory of \$306,000 and \$116,000, respectively. These cash flows from operating activities were offset by an increase in income tax receivable of \$227,000, an increase in prepaid expenses and other assets of \$172,000, a decrease in income tax payable of \$157,000 and a decrease in accounts payable and accrued liabilities of \$37,000.

For the three months ended September 30, 2016, net cash used by operating activities was approximately \$1,216,000. Cash flow used in operating activities consisted of a decrease in accounts payable and accrued liabilities of \$1,220,000, an increase in accounts receivable of \$432,000, an increase in inventories of \$100,000 and an increase in prepaid expenses and other assets of \$13,000. These uses in operating cash flow were partially offset by cash flow provided by operating activities consisting of approximately \$191,000 in net income, net non-cash expenses of approximately \$300,000 and a decrease in income tax receivable of \$58,000. The decrease in accounts payable and accrued liabilities was driven primarily by employee incentive payments which were accrued for during the fiscal year ended June 30, 2016 and paid during the three months ended September 30, 2016.

#### *Cash Flows from Investing Activities*

For the three months ended September 30, 2017, cash used in investing activities was approximately \$102,000. Cash used in investing activities consisted of approximately \$95,000 in expenditures for property and equipment and \$7,000 in payments for patent costs.

For the three months ended September 30, 2016, cash used in investing activities was approximately \$71,000. Cash used in investing activities consisted of approximately \$49,000 in expenditures for property and equipment and \$22,000 in payments for patent costs.

#### *Cash Flows from Financing Activities*

For the three months ended September 30, 2017, cash used in financing activities was approximately \$12,000, which consisted of principal payments on long-term debt.

For the three months ended September 30, 2016, cash used in financing activities was approximately \$13,000, which consisted of principal payments on long-term debt.

#### *Adequacy of Capital Resources*

Our primary working capital requirements relate to adding employees to our sales force and support functions, continuing research and development efforts, and supporting general corporate needs, including financing equipment purchases and other capital expenditures incurred in the ordinary course of business. Based on our recent operational performance, we believe our working capital of approximately \$15,936,000 as of September 30, 2017 and available borrowings under our existing credit facility will provide adequate liquidity for the next year.

Effective December 18, 2016, we renewed our credit facility, which provides us with a revolving line of credit and a term loan. Interest on borrowings on the line of credit accrues at the prime rate and is payable monthly. The amount eligible for borrowing on the line of credit is limited to the lesser of \$2,500,000 or 57.00% of eligible accounts receivable, and the line of credit expires on December 18, 2017, if not renewed. At September 30, 2017, the maximum \$2,500,000 was available under the line of credit and the applicable interest rate (the prime rate) was 4.25%. Payment obligations under the line of credit are secured by a security interest in substantially all of our tangible and intangible assets.

In connection with the credit facility, we also have a term loan, which had an outstanding principal balance of approximately \$1,141,000 at September 30, 2017 and \$1,154,000 as of June 30, 2017. The term loan was refinanced effective December 18, 2016, reducing the interest rate from 5.00% to 3.88%. The unamortized debt issuance cost associated with this debt was approximately \$5,000 and \$6,000 as of September 30, 2017 and June 30, 2017, respectively. The term loan bears interest at 3.88%, with monthly payments of principal and interest of approximately \$7,900 and a final payment of principal and interest of approximately \$1,085,000 due on the maturity date of December 18, 2018. Payment obligations under the term loan are secured by a mortgage on our real property.

The documents governing our line of credit and term loan contain certain financial and nonfinancial covenants that include a minimum tangible net worth of not less than \$10,125,000 and restrictions on our ability to incur certain additional indebtedness or pay dividends. We were in compliance with these covenants as of September 30, 2017.

Any failure to comply with these covenants in the future may result in an event of default, which if not cured or waived, could result in the lender accelerating the maturity of our indebtedness, preventing access to additional funds under the line of credit and/or term loan, requiring prepayment of outstanding indebtedness under either arrangement, or refusing to renew the line of credit. If the maturity of the indebtedness is accelerated or the line of credit is not renewed, sufficient cash resources to satisfy the debt obligations may not be available and we may not be able to continue operations as planned. The indebtedness under the line of credit and term loan are secured by a security interest in substantially all of our tangible and intangible assets and a mortgage on our real property, respectively. If we are unable to repay such indebtedness, the lender could foreclose on these assets.

For the three months ended September 30, 2017 and 2016, we spent approximately \$95,000 and \$49,000, respectively, on property and equipment. We currently expect to finance planned equipment purchases with cash flows from operations or borrowings under our credit facility. We may need to incur additional debt if we have an unforeseen need for additional capital equipment or if our operating performance does not generate adequate cash flows.

#### **Off-Balance Sheet Arrangements**

As of September 30, 2017, we had no off-balance sheet arrangements.

#### **Cautionary Note Regarding Forward-Looking Statements**

Statements contained in this Quarterly Report on Form 10-Q that are not statements of historical fact should be considered forward-looking statements within the meaning of the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements include, but are not limited to, statements regarding the following: our business strategy, including our intended level of investment in research and development and marketing activities; our expectations with respect to earnings, gross margins and sales growth, industry relationships, marketing strategies, distribution agreements with third parties and international sales; our business strengths and competitive advantages; our plans and expectations with respect to international sales growth; our intent to retain any earnings for use in operations rather than paying dividends; our expectation that our products will continue to qualify for reimbursement and payment under government and private insurance programs; our intellectual property plans and practices; the expected impact of applicable regulations on our business; our beliefs about our manufacturing processes; our expectations and beliefs with respect to our employees and our relationships with them; our belief that our current facilities are adequate to support our growth plans; our expectations with respect to ongoing compliance with the terms of our credit facility; our expectations regarding the ongoing availability of credit and our ability to renew our line of credit; the expansion and availability of our SmartVest Connect technology; and our anticipated revenues, expenses, capital requirements and liquidity. Words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "goal," "intend," "may," "ongoing," "plan," "potential," "project," "should," "target," "will," "would," and similar expressions, including the negative of these terms, are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. Although we believe these forward-looking statements are reasonable, they involve risks and uncertainties that may cause actual results to differ materially from those projected by such statements. Such statements involve known and unknown risks, uncertainties and other factors that may cause our actual results or our industry's actual results, levels of activity, performance or achievements to be materially different from the information expressed or implied by the forward-looking statements.

Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to:

- the competitive nature of our market;
- changes to Medicare, Medicaid, or private insurance reimbursement policies;
- changes to health care laws;
- changes affecting the medical device industry;
- our need to maintain regulatory compliance and to gain future regulatory approvals and clearances;
- new drug or pharmaceutical discoveries;
- general economic and business conditions;
- our ability to renew our line of credit or obtain additional credit as necessary;
- our ability to protect and expand our intellectual property portfolio; and
- the risks associated with expansion into international markets.

This list of factors is not exhaustive, however, and these or other factors, many of which are outside of our control, could have a material adverse effect on us and our results of operations. Therefore, you should consider these risk factors with caution and form your own critical and independent conclusions about the likely effect of these risk factors on our future performance. Forward-looking statements speak only as of the date on which the statements are made, and we undertake no obligation to update any forward-looking statement for any reason, even if new information becomes available or other events occur in the future. You should carefully review the disclosures and the risk factors described in this and other documents we file from time to time with the Securities and Exchange Commission (the “SEC”), including our Annual Report on Form 10-K and subsequent reports we file with the SEC. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth herein.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

As a smaller reporting company, we are not required to provide disclosure pursuant to this Item.

**Item 4. Controls and Procedures.**

**Evaluation of Disclosure Controls and Procedures**

Our principal executive officer and principal financial officer evaluated the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act, as of the end of the period subject to this Quarterly Report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of the date of such evaluation to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms.

**Changes to Internal Control Over Financial Reporting**

There were no changes in our internal control over financial reporting that occurred during the three months ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II – OTHER INFORMATION**

**Item 1. Legal Proceedings.**

Occasionally, we may be party to legal actions, proceedings, or claims in the ordinary course of business, including claims based on assertions of patent and trademark infringement. Corresponding costs are accrued when it is probable that loss will be incurred and the amount can be precisely or reasonably estimated. We are not aware of any undisclosed actual or threatened litigation that would have a material adverse effect on our financial condition or results of operations.

**Item 1A. Risk Factors.**

As a smaller reporting company, we are not required to provide disclosure pursuant to this Item.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

None.

**Item 3. Defaults Upon Senior Securities.**

None.

**Item 4. Mine Safety Disclosures.**

None.

**Item 5. Other Information.**

None.

**Item 6. Exhibits.**

Unless otherwise indicated, all documents incorporated into this Quarterly Report on Form 10-Q by reference to a document filed with the SEC pursuant to the Exchange Act are located under SEC file number 001-34839.

**Fiscal Year 2018 Officer Bonus Plan**

The Personnel and Compensation Committee of the Board of Directors of Electromed, Inc. (the “Company”) has established the Fiscal Year 2018 Officer Bonus Plan (the “Bonus Plan”) for officers of the Company, including its named executive officers. The Bonus Plan is effective for the fiscal year ending June 30, 2018 and provides an opportunity for each participant to earn an annual cash bonus based on Company revenue growth versus the fiscal year ended June 30, 2017 (subject to achievement of threshold earnings before interest and taxes (“EBIT”). The committee has established target payouts of 50.0% and 30.0% of annual base salary for our Chief Executive Officer and Chief Financial Officer, respectively, under the Bonus Plan. The following summarizes the potential payments under the Bonus Plan:

- Company revenue growth below minimum performance will not result in any payouts under the Bonus Plan.
- Company revenue growth between minimum and target performance will result in a potential bonus payout starting at 12.5% and increasing in increments of 17.5% of the participant’s respective target payout for every whole percent of revenue growth in excess of minimum performance.
- Company revenue growth equal to target performance will result in a potential bonus payout equal to 100.0% of the participant’s respective target payout.
- Company revenue growth above target performance will result a potential bonus payout equal to 100.0% of the participant’s respective target payout, plus an additional increment of 5.0% of their target payout for every whole percent of revenue growth in excess of target performance.

Notwithstanding the foregoing, Company revenue growth also will not result in any payout unless EBIT also exceeds an established threshold amount. Company revenue growth above target performance will only increase the resulting payout as a percent of target if EBIT also exceeds an amount equal to the threshold EBIT amount plus an additional increment of 30.0% of threshold EBIT for every whole percent of revenue growth in excess of target performance.

---

**Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Kathleen S. Skarvan, certify that:

1. I have reviewed this report on Form 10-Q of Electromed, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350,  
AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Electromed, Inc. (the "Company") on Form 10-Q for the quarter ended September 30, 2017, as filed with the Securities and Exchange Commission (the "Report"), I, Kathleen S. Skarvan, President and Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
