SMART VEST SYSTEM
BY ELECTROMED, INC.

► State-of-the-Art Therapy Experience

SmartVest® Clearway® ushers in a new era for HFCWO therapy.

The **intuitive touchscreen interface** makes using therapy a breeze, while its **small size** and **light weight** make it portable and convenient for travel.

It's also the only HFCWO system with Breathing Room,™ our **proprietary action of inflating and deflating the vest** so patients can breathe more comfortably during therapy. Plus, the **modern design** and **Bluetooth® connectivity** make it a contemporary device that patients can enjoy using.

- **Simple:** the only HFCWO device with a touchscreen.
- **Portable:** the smallest and lightest HFCWO device.
- **Connected:** Bluetooth capable for therapy tracking.

At just 13.3 lbs, Clearway is the lightest HFCWO generator available. The SmartVest garment averages just 1.7 lbs.

➤ Proven Outcomes, Clear Evidence

Studies continue to show that SmartVest high-frequency chest wall oscillation (HFCWO) therapy is proven to reduce exacerbations, reduce healthcare resource utilization,³ and reduce associated healthcare costs while **stabilizing lung function**,¹ **promoting airway clearance**, and **improving bronchial drainage**:

An outcomes-based case review study showed SmartVest **reduced exacerbations**, with participants reporting significant improvements to their **quality of life**.²

An independent retrospective cohort analysis showed **reduced healthcare utilization** among non-cystic fibrosis bronchiectasis patients after introducing HFCWO therapy.³

For patients with chronic respiratory conditions, such as bronchiectasis, **evidence continues to point to SmartVest**.

➤ Demonstrated Efficacy of SmartVest:

57%
fewer
antibiotics²

59%
fewer
hospitalizations²

68%
improved
quality of life²

► Airway Clearance Is Our Priority

We're the only brand singularly dedicated to HFCWO.

We developed SmartVest Clearway so more people with chronic respiratory conditions can take deep breaths and get back to life's activities. Our teams serve as an extension of your clinic to Take the Pressure Off™:

• **Clinical sales representatives** focus on clinic and physician outreach to educate on benefits of HFCWO therapy and to make ordering SmartVest easy.

• **Dedicated reimbursement specialists** handle all insurance documentation and provide clinicians and patients with unparalleled support.

• **Licensed respiratory therapists** provide comprehensive patient training and support.

**"We use SmartVest most importantly for
its quality and effectiveness.
Our patients are showing significant progress."**

— Kristy Wilson, Director of the Neurodiagnostic/Cardiac Service Line,
Sumner Regional Medical Center

► **Make a difference in how patients experience
HFCWO therapy: The difference is Clearway.**

Call our dedicated clinical support team to get your patients breathing easier and living better with SmartVest:

(800) 462-1045

Our patient account liaisons work with healthcare teams to facilitate all necessary forms and documentation. 8am to 5pm CST, M–F.

Patient Support:

Our team of licensed respiratory therapists help patients set up, operate, and troubleshoot their SmartVest system.

(888) 966-2525. 7am to 10pm CST, 365 days a year.

“My patients couldn’t believe the difference SmartVest made in their lives.”

—Leslie Carpenter, CRT
